

STUDIO DELTA

www.studiodelta.co.za

OUR START

*offering high-quality designs at a
fraction of the price*

Studio Delta started in 2020 to counter the adverse effects of COVID-19 on the construction industry and specifically on our sister company, Delta Construction. By creating job opportunities for our construction employees with skills relating to carpentry, painting, and welding, we branched out into furniture manufacturing. All our pieces are proudly manufactured in South Africa.

CUSTOM FINISHES

crafting high-end furniture through a selection of steel, glass, and wood

All our pieces are carefully handmade in our factory in South Africa. Great consideration is given to selecting each finish and the materials used. If a certain product catches your eye, but the dimensions are just a little off for that special nook in your home, we offer customisation for each product. Change the dimensions, the colour or the materials to suit your style. Or if you need a uniquely new piece, like built-in kitchen cabinets or a floating bathroom vanity, Studio Delta is the company for the job.

POWDER COATING OPTIONS

custom finishes

SMOOTH MATT

A smooth matt finish to achieve that sleek look.

FERRO GRAIN

A rough finish, ideal for outdoors or a modern look.
